

The scientific conference ACMT2020 in the year 2021!

Dear Colleague in Manufacturing,

We are organising a joint international conference in Moscow (Russia) on the basis of a long term and fruitful collaboration between the INSTITUTE OF MACHINE TOOLS AND MANUFACTURING IWF of ETH Zürich and the MOSCOW STATE UNIVERSITY OF TECHNOLOGY STANKIN as you might know from prior notice. This collaboration expresses already our intention to intensify and enhance the international relationship with Russia. All in all, we would like to see the conference as a door opener between west and east leading to mutual beneficial cooperation.

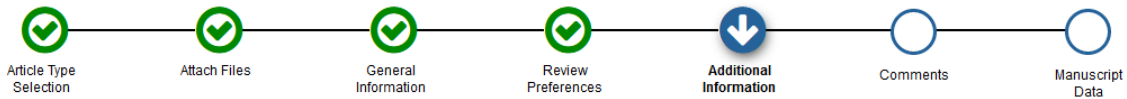

As co-chairman, I would like to attract your attention on this conference and advertise for your participation and conference contribution.

The scientific conference ACMT2020 in Moscow is attracting national and international experts from different fields, which are all related to manufacturing. In addition, the conference provides a platform for industries to get state-of-the-art knowledge and to network with academia fostering collaboration between them. Having the conference in sequence with the biggest manufacturing technology show in Russia, the Metalloobrabotka international exhibition, creates a unique momentum.

Since the year 2020 led to many cancellations of conferences and exhibitions, the motivation to visit a combined event in Moscow is justifiable and we were lucky that we postponed this conference sufficiently, namely to end of May. In order to bridge the gap between the Metalloobrabotka fair and the ACMT conference, an interesting bridging program including panel discussions, company visits and cultural events is planned over the weekend. The conference then officially starts on Monday the 31<sup>st</sup> of Mai 2021 and lasts 3 days. The draft of the preliminary program is available on our conference website <https://acmt2020.stankin.ru/>.

In addition, we have managed to get THE INTERNATIONAL JOURNAL OF ADVANCED MANUFACTURING TECHNOLOGY as a new partner. Therefore all contributions will be now journal publications, allowing authors to reach a broader audience, impact factor 2.925 (2019). In the scope of the ACMT2020 special issue, we expect manuscripts containing about 6-10 pages.

Consequently, the template for the manuscripts is available on the publisher's website <https://www.editorialmanager.com/jamt/> as LaTeX document. If you wish to use a Word template, please check our conference website <https://acmt2020.stankin.ru/>. All authors are asked to upload their papers onto the journal's electronic submission system at <https://www.editorialmanager.com/jamt/default.aspx>. When doing this they will be asked if the manuscript belongs to a special issue and if they mark "yes" they have to select the right special issue "*SI Advanced and Competitive Manufacturing Technologies (ACMT2020)*" as shown in the figure below.

*Please respond to the presented questions/statements.*

[Insert Special Character](#)

**Questionnaire**

Does this manuscript belong to a Special Issue?

**Answer Required:**  Please select a response  
 Yes  
 No

Please select the special issue your manuscript belongs to

**Answer Required:**  Please select a response  
 SI: Autonomous Remanufacturing  
 SI: FAIM2020  
 SI: Advanced and Competitive Manufacturing Technologies (ACMT2020)

You can submit your full manuscript until December 2<sup>nd</sup>. Moreover, make sure to register yourself and others to the conference via the following email address [acmt2020@stankin.ru](mailto:acmt2020@stankin.ru). Thank you for your understanding!

As a member of the executive board and in the name of the conference board, we cordially invite you to the ACMT2020 conference looking forward to meeting you in Moscow in Mai 2021!

Stay tuned for updates and visit our website!

All the best, stay safe, take good care, and we hope to see you in Moscow.

Konrad Wegener

**ACMT2020 Executive Board (EB)**

Elena Georgievna Kataeva  
Елена Георгиевна Катаева  
Chairman  
Председатель конференции

Konrad Wegener  
Конрад Вегенер  
Co-Chairman  
Сопредседатель конференции

Andrey Anatolevich Kutin  
Андрей Анатольевич Кутин  
Co-Chairman  
Сопредседатель конференции

**ACMT2020 General Secretariat (GE)**

Fabian Kneubühler  
Фабиан Кнойбюлер  
Secretary General Conference Organisation (SGO)  
Генеральный Секретарь по организации конференции (SGO)

Mikhail Borisovich Kliuev  
Михаил Борисович Ключев  
Secretary General Scientific Coordination (SGS)  
Генеральный Секретарь по научной координации (SGS)
