

## Swissphotonics

- The Swiss network for photonics.
- Improves the competitiveness of its members.
- Encourages innovation forces.
- Directly supports SMEs.
- Serves companies, research organisations, and universities in the field of photonics.
- Finds research partners and funding.
- Supports the networking within Switzerland, Europe (Photonics21, EPIC) and worldwide (OSA, IOA).
- Is a non-profit association, registered under *Verein Schweizer Laser und Photonik Netz*.

## Swiss National Photonic Labs

- Centers of competence: combines interested research organizations for a specific topic.
- Single point contact: connection to the best suitable institute to handle a specific request.

SNAP	<b>Swiss National Applicationlab for Photonic</b>	Biel - Bienne BE
SNFL	<b>Swiss National Fiber Lab</b>	Burgdorf BE
SSSL	<b>Swiss Solid State Lighting</b>	Muttenz BL
SPPL	<b>Swiss Photonic Packaging Lab</b>	Alpnach OW
SNOP	<b>Swiss National Optics Platform</b>	Buchs SG
SEPP	<b>Swiss Education Platform in Photonics</b>	Lausanne VD
SRPV	<b>Swiss Research in PhotoVoltaics</b>	Dübendorf ZH
SNOS	<b>Swiss National lab for Optical Sensors</b>	Zürich
