

WORKSHOP

# Industrialization of Perovskite Thin Film Photovoltaic Technology

Sala Town Hall Perugia Centro Congressi, IT

Thursday, 18 September 2025 from 9:00 to 16:00 CET

## TOPIC

The advent of hybrid perovskites in the family of solar cell technologies is spurring tremendous research activities worldwide. The major thrust for endorsing this thin film technology consists of the competitive power conversion efficiencies, low manufacturing costs and interoperability with well-established technologies such as crystalline silicon and CIGS.

Following the huge research effort with thousands of scientific publications every year, industrial implementation has gained impetus. This workshop shall capture the most important developments in the field of industrialization of perovskite solar cells by bringing together a panel of industrial representatives of the major players.

#### TARGET AUDIENCE

With this workshop we intend to update and inform about the progresses made and challenges faced by companies pushing forward industrialization of perovskite solar cells. Targeted are scientists and engineers in the field of solar cells as well as industrialists and investors being interested in this growing sector.

# **POSTER**

Posters are welcome and boards will be available. Please contact the conference office.

# REGISTRATION

Fee: 180 Euro (incl. VAT)
Please register at:

https://www.psco-conference.org/

Deadline: 31 July 2025

# PROGRAM COMMITTEE

Prof. Frank A. Nüesch Dr. Fan Fu Empa Prof. Filippo De Angelis University of Perugia

#### CONFERENCE OFFICE

claudia.frey@empa.ch +41 58 765 49 14 Ms Beatrice Bizzari beatricebizza@gmail.com

## **SPONSORING**

Ms Claudia Frey

- Greatcell Solar Materials Pty Ltd
- nsm Norbert Schläfli AG
- Perovskia Solar SA
- TSE Troller AG

# **PROGRAM**

08:00 Registration

09:00 Opening

Prof. F. Nüesch, Empa, Dübendorf (CH)

**09:10 4-T tandem solution by GCL**Dr. F. Bin, GCL-Power, Suzhou (CN)

09:30 The crucial role that equipment suppliers play in the commercialisation of perovskite solar manufacturing
Dr. C. Case, Oxford PV, Oxford (UK)

09:50 Upscaling 4T bifacial tandem solar modules in Europe: From lab to GW production Dr. F. Di Giacomo, Solertix S.r.l, Rome (IT)

 High yield production of perovskite solar module and applications
 Dr. B. Yan, Microquanta Semiconductor, Hangzhou (CN)

#### 10:30 Coffee break - Poster session

11:20 Complete solutions for the commercialization of perovskite modules

Prof. M. K. Nazeeruddin, Utmoliqht, Wuxi (CN)

11:40 Outdoor performance of MW-scale
perovskite PV system
Dr. H. Tan, Renshine Solar, Suzhou (CN)

12:00 Sponsor pitches

#### 12:30 Lunch

 14:10 Efficiency enhancement and cost reduction of PSC using inkjet printing technology
 Dr. Y. Iizuka, Panasonic Production
 Engineering Co., Ltd., Osaka (JP)

14:30 Unlocking the future of solar: Singfilm Solar's journey toward industrial-scale perovskite commercialization Prof. Y. Hou, Singfilm Solar, Singapore (SG)

14:50 Perovskite development at First Solar Dr. O. Lundberg, First Solar's European Technology Center (ETC), Uppsala (SE)

15:10 Ambient light powered IoT devices using custom designed Perovskia solar cells Dr. T. Meyer, Perovskia Solar SA, Aubonne (CH)

15:30 Transforming µLED displays:
The perovskite revolution
Dr. B. Wenger, Helio Display Materials,
Oxford (UK)

**15:50 Short conclusions** Prof. F. Nüesch, Empa, Dübendorf (CH)

Perugia Congress Centre: 26 meeting rooms dedicated to Jazz and Auditorium with 700 seating places. Hotel Giò – Perugia Centro Congressi proposes itself as a functional structure, point of reference for the central area in Italy. Two Halls (Jazz Hall and Wine Hall) with secluded areas expressly developed for informal meeting, living bar for aperitif and coffee break and comfortable working and reading corners. Ideal for Workshops with its adjustable rooms, thanks to movable deafen walls.

Centro Congressi Hotel Giò Wine & Jazz Area Via Ruggero D'Andreotto 19 06124 Perugia (PG) Italy https://www.hotelgio.it/en/
