

LANE 2026: Call for Contributions

Dear photonics community,

We are happy to let you know that the **Call for Contributions** for the **LANE 2026** conference starts today.

You have gained interesting research results in the field of photonic technologies - especially in laser material processing - and want to present them to experts from all over the world?

Then take your chance now and be part of the 14th CIRP Conference on Photonic Technologies [LANE 2026] on September 21 to 25, 2026, for the first time in Erlangen.

There are two submission lines in LANE 2026:

(A) Scientific contribution (paper & presentation):

Submit your manuscript until 28.02.2026. Please note that there is no preceding abstract phase. Your scientific paper (with a total length of 4 pages) will be reviewed by an international review committee of renowned experts. In case of a positive review result, the paper will be published online as a special issue of Elsevier's open access journal 'Procedia CIRP' and presented live at LANE 2026. Papers published in Procedia CIRP will be available online on ScienceDirect. Procedia CIRP is indexed in the EI Compendex and Scopus databases.

(B) Industrial contribution (presentation only):

Industrial abstract submission deadline is 28.02.2026. Abstracts should consist of about 150 words and must be written in English. Your abstract on your industrial presentation at LANE will be reviewed on its relevance for application. In case of a positive review result, your presentation will be scheduled at LANE 2026.

As the first step on the way to your LANE contribution, please create an account at our conference management system 'ConfTool':

<https://www.conftool.com/lane-conference-2026>

Scientific contributors will receive the paper template in December 2025.

For detailed information on LANE 2026, please visit the conference homepage:

www.lane-conference.org

We cordially invite you to join our LANE community and are looking forward to your submissions.

If you have any questions, please feel free to contact us.

With best wishes,
Your LANE team
