

SUPSI

SUPSI Industry Day 2019

November 8th 2019, 09:00 – 16:00

After two successful editions, the University of Applied Sciences and Arts of Southern Switzerland (SUPSI), is pleased to announce its third SUPSI Industry Day in Lugano-Canobbio.

The SUPSI PVLab and the Innovative Envelope (BiPV) Team will present their testing and research activities and the new SUPSI PVLab, which will be inaugurated in 2020, in the new Campus SUPSI in Mendrisio (Switzerland).

Participation is free of charge but registration is required through the following [form online](#).

Program

Morning session

- 09:00 Registration
- 10:00 Welcome
Mauro Caccivio, Head of SUPSI PVLab
- 10:10 BiPV Boost project: cost reduction of building Integrated photovoltaics for efficient market penetration
Pierluigi Bonomo, Researcher, SUPSI-ISAAC
- 10:40 Advanced characterization of innovative modules: the angle of incidence measurement
Giovanni Bellenda, Scientific collaborator, SUPSI PVLab
- 11:05 Indoor and outdoor test results on coloured BIPV modules
Gabi Friesen, Researcher, SUPSI-ISAAC
- 11:30 Some Practical Aspects about Perovskite Solar Cells & Modules
Toby Meyer, Solaronyx
- 12:00 Industrial production of fully integrated PV roofs at 3 Solar Plus
Ivano Pola, 3S Solar Plus

12:30 – 13:30 Standing lunch

Afternoon session

- 13:30 Between present and future: visit of the SUPSI PVLab in Canobbio and virtual tour of the future SUPSI PVLab in Mendrisio
Mauro Caccivio and Giovanni Bellenda, SUPSI PVLab (PVLab tour)
Sebastiano Maltese, Researcher, SUPSI-ISAAC (virtual tour)
- 14:30 LeTID degradation: an overview
Andrea Viaro, Jinkosolar
- 15:00 Leading actors in innovation at SUPSI: Hive Power & iWin

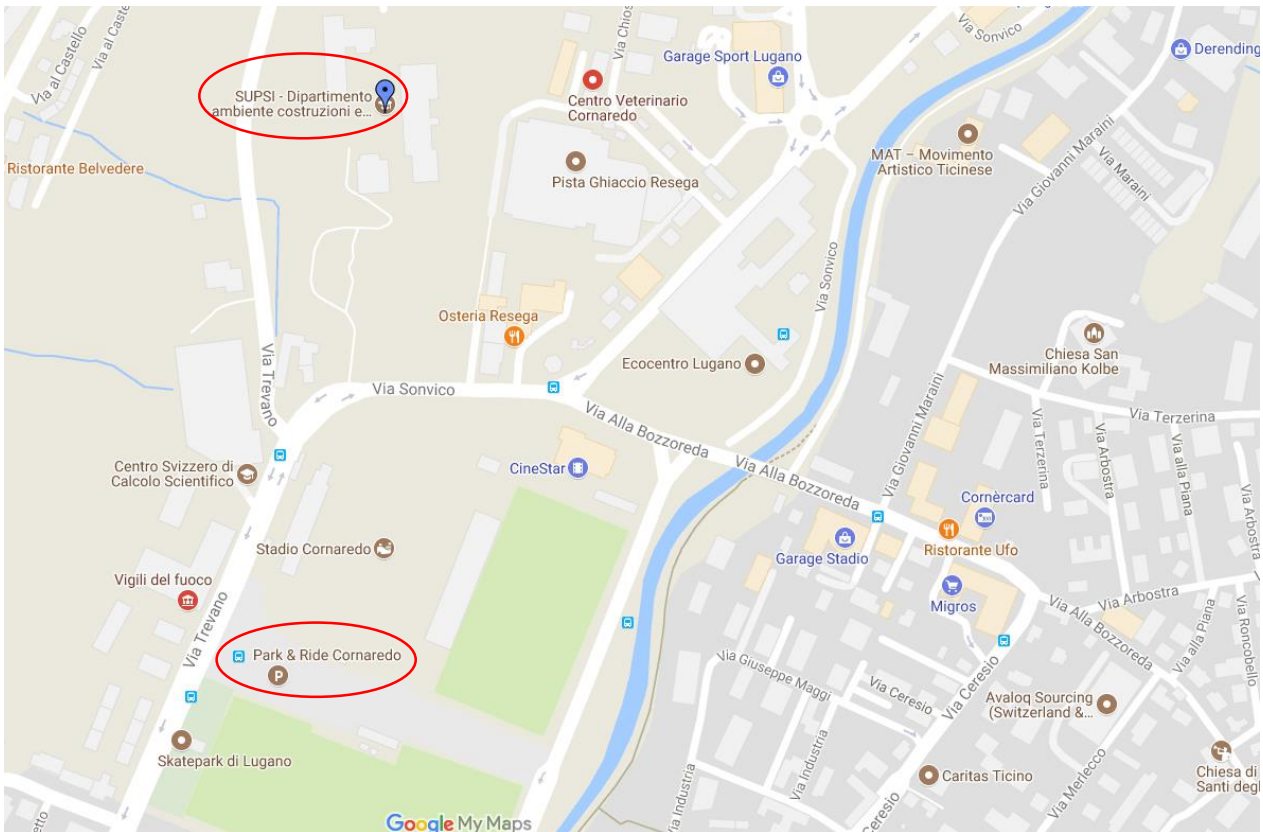

Grids made smart: machine learning and blockchain for the electrical grid
Gianluca Corbellini, CEO, Hive Power Sagl

“iWin: Innovative Windows for Solar Facades
Ruben Roldàn Molinero, CTO, iWin
- 16:00 Aperò & networking

How to arrive to SUPSI

SUPSI – Dipartimento ambiente costruzioni e design
Campus Trevano, Via Trevano, 6952 Canobbio, Switzerland
